My name is [REDACTED] and I believe a clean and safe Willamette River is critical to protecting our community, our environment, and our economy. Please consider the following points as you make key decisions about the cleanup of our river:

- 1 I want my river cleaned up by those who contaminated it and/or own contaminated land.
- 2 The highest priority should be **removing contaminated sediment** from the river.
- 3 People should be able to recreate in this area **without worrying** about the impact of contaminated fish and sediment on their health.
- 4 The **past damage** to the environment should be **fully mitigated**.
- 5 **Wildlife should be protected** in the cleanup of Portland Harbor.
- 6 **More access points** should be created to make recreation on our clean river easier.

Thank you for your consideration,

My name is \_\_\_\_\_ and I believe a clean and safe Willamette River is critical to protecting our community, our environment, and our economy. Please consider the following points as you make key decisions about the cleanup of our river:

- 1 I want my river cleaned up by those who contaminated it and/or own contaminated land.
- 2 The highest priority should be **removing contaminated sediment** from the river.
- 3 People should be able to recreate in this area **without worrying** about the impact of contaminated fish and sediment on their health.
- 4 The **past damage** to the environment should be **fully mitigated**.
- 5 **Wildlife should be protected** in the cleanup of Portland Harbor.
- 6 **More access points** should be created to make recreation on our clean river easier.

Thank you for your consideration,

My name is \_\_\_\_\_ and I believe a clean and safe Willamette River is critical to protecting our community, our environment, and our economy. Please consider the following points as you make key decisions about the cleanup of our river:

- 1 I want my river cleaned up by those who contaminated it and/or own contaminated land.
- 2 The highest priority should be **removing contaminated sediment** from the river.
- 3 People should be able to recreate in this area **without worrying** about the impact of contaminated fish and sediment on their health.
- 4 The **past damage** to the environment should be **fully mitigated**.
- 5 **Wildlife should be protected** in the cleanup of Portland Harbor.
- 6 **More access points** should be created to make recreation on our clean river easier.

# To US EPA Region 10 Administrator:

My name is (b) (6) and I believe a clean and safe Willamette River is critical to protecting our community, our environment, and our economy. Please consider the following points as you make key decisions about the cleanup of our river:

- 1 I want my river cleaned up by those who contaminated it and/or own contaminated land.
- 2 The highest priority should be **removing contaminated sediment** from the river.
- 3 People should be able to recreate in this area **without worrying** about the impact of contaminated fish and sediment on their health.
- 4 The **past damage** to the environment should be **fully mitigated**.
- 5 **Wildlife should be protected** in the cleanup of Portland Harbor.
- 6 **More access points** should be created to make recreation on our clean river easier.

Thank you for your consideration. (b) (6)

My name is (b) (6) and I believe a clean and safe Willamette River is critical to protecting our community, our environment, and our economy. Please consider the following points as you make key decisions about the cleanup of our river:

- 1 I want my river cleaned up by those who contaminated it and/or own contaminated land.
- 2 The highest priority should be **removing contaminated sediment** from the river.
- 3 People should be able to recreate in this area **without worrying** about the impact of contaminated fish and sediment on their health.
- 4 The **past damage** to the environment should be **fully mitigated**.
- 5 **Wildlife should be protected** in the cleanup of Portland Harbor.
- 6 **More access points** should be created to make recreation on our clean river easier.

Thank you for your consideration.

My name is (b) (6) and I believe a clean and safe Willamette River is critical to protecting our community, our environment, and our economy. Please consider the following points as you make key decisions about the cleanup of our river:

- 1 I want my river cleaned up by those who contaminated it and/or own contaminated land.
- 2 The highest priority should be **removing contaminated sediment** from the river.
- 3 People should be able to recreate in this area **without worrying** about the impact of contaminated fish and sediment on their health.
- 4 The **past damage** to the environment should be **fully mitigated**.
- 5 **Wildlife should be protected** in the cleanup of Portland Harbor.
- 6 **More access points** should be created to make recreation on our clean river easier.

Thank you for your consideration.

# To US EPA Region 10 Administrator:

My name is

(b) (6)

and I believe a clean and safe Willamette

River is critical to protecting our community, our environment, and our economy. Please consider the following points as you make key decisions about the cleanup of our river:

- 1 I want my river cleaned up by those who contaminated it and/or own contaminated land.
- 2 The highest priority should be **removing contaminated sediment** from the river.
- 3 People should be able to recreate in this area **without worrying** about the impact of contaminated fish and sediment on their health.
- 4 The **past damage** to the environment should be **fully mitigated**.
- 5 **Wildlife should be protected** in the cleanup of Portland Harbor.
- 6 **More access points** should be created to make recreation on our clean river easier.

Thank you for your
